SUMMARY

Information Technology student and Full-Stack Developer specializing in accessible, high-performance web applications. Engineered automated accessibility tooling that cut WCAG compliance defects by 84% to 92% on tested production pages. Combines modern TypeScript ecosystems with an accredited computer networking foundation (BNSP) to build responsive, reliable software.

TECHNICAL PROFICIENCIES

Languages: TypeScript, JavaScript (ES6+), SQL, PHP, HTML5, CSS3
Frontend: React.js, Astro, Vite, Tailwind CSS, Bootstrap, Blade
Backend & DB: Node.js, REST APIs, Supabase, PostgreSQL, MongoDB, MySQL, Express, Python, Prisma, Java, Laravel
DevOps & Tools: Git & GitHub, CI/CD, Docker, Cloudflare Pages, Wordpress

EXPERIENCE

- Web Developer Intern** Mar 2026 – Present
JakartaHitz
– Audited third-party WordPress plugins and eliminated script bottlenecks, enhancing mobile Core Web Vitals and PageSpeed stability during high-traffic news surges.
– Structured and deployed the digital news portal layout from scratch using zero-dependency CSS to maintain consistent cross-device responsiveness.
– Performed continuous site health checks and production incident triage to ensure high platform uptime.
- Frontend Developer (Freelance)** Apr 2026 – May 2026
Andalasia Group
– Engineered and launched an agency web application using React 19, Vite, and Tailwind CSS.
– Implemented interactive UI components and scroll-driven animations with Framer Motion to elevate branding.
– Built technical SEO infrastructure using Schema.org JSON-LD and Open Graph protocols to improve discoverability.
- Network Engineer Intern** Jun 2023 – Sept 2023
PUSHANSIBER Kemhan RI
– Monitored institutional network traffic and executed packet-level diagnostics to resolve connectivity faults.
– Mapped internal network topologies and standardized client provisioning workflows for infrastructure reliability.

LEADERSHIP & ACTIVITIES

- President** Feb 2026 – Present
UKM Coding – Cyber University
– Led the planning and execution of all annual organizational initiatives and workshops for a 70+ student developer community.
– Coordinated cross-divisional teams to run peer learning sessions, coding study groups, and technical showcases.
– Oversaw community deliverables, including member project launches and the organization's official platform (ukmcoding.site).
- Vice President** Feb 2025 – Feb 2026
UKM Coding – Cyber University
– Assisted in community operations and mentored junior members through foundational web development study groups.

EDUCATION

- Cyber University** Sept 2024 – Jul 2028 (Expected)
Bachelor of Information Technology
– **Relevant Coursework:** Data Structures, Database Systems, Object Oriented Programming, Computer Networks.
- SMK 3 Perguruan Cikini** 2021 – 2024
Vocational Diploma in Computer Network Engineering
– **Honors:** Ranked 1st Best Graduating Student in Computer Network Engineering.
– **Focus:** Enterprise routing protocols, switching architectures, and systems infrastructure.

HONORS & CERTIFICATIONS

- SQL (Advanced) Skill Certification** – HackerRank Jul 2025
Finalist in Web Programming Competition – INV FEST, Telkom University Purwokerto Jan 2025
Certified Computer Network Technician – BNSP RI Jun 2024
